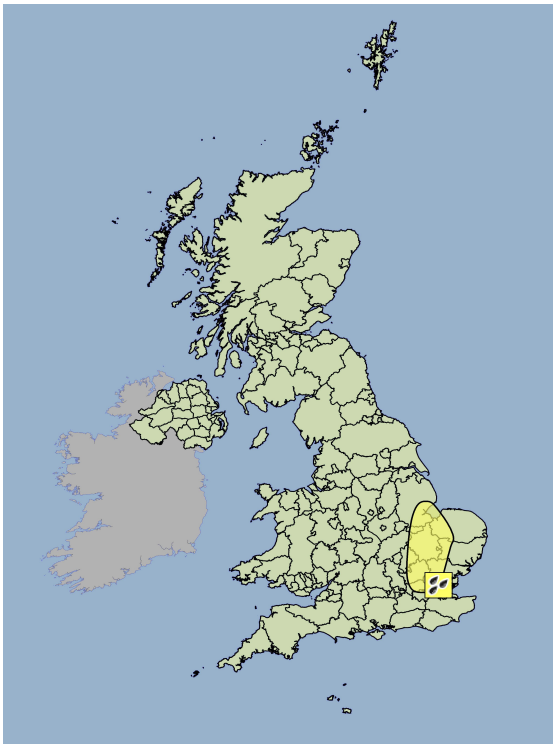
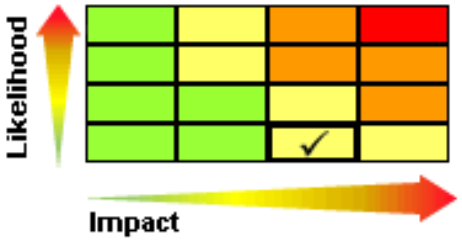
National Severe Weather Warning Service





Chief Forecasters Assessment
Hot, unstable air coming up from France will coincide with daytime heating to bring the likelihood of temperatures into the low 30's Celsius locally on Saturday. This may trigger torrential thunderstorms, bringing the risk of more than 30 mm in less than an hour. The situation remains finely balanced and this alert will be updated on Saturday morning.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **14:00 on Sat, 22nd Aug 2015** until **21:00 on Sat, 22nd Aug 2015**

Isolated heavy, thunderstorms could break out on Saturday afternoon and last into the evening.

Whilst most will miss these, the public should be aware of the risk of localised surface water flooding, strong gusts, lightning and hail.
